Quality Assured Standards

We are proud to have been awarded the four British and European Quality Assured Standards, the maximum available within the Removals industry. In recognition of this achievement we are entitled to display the British Kitemark for Removals Services.

We are members of The British Association of Removers (BAR) and the BAR Overseas Group Membership, which gives you the protection of the International Movers Mutual Insurance (IMMI).

This protection gives our customers an assurance that in the unlikely event of financial failure your move will be completed at no additional expense to you. We are one of only 55 UK removals companies that can offer this level of protection with no additional costs to our customers.
